

PUBLIC HEARING

Route AE Bridge Improvements

Stoddard County

Aug. 22, 2006

What's the problem?

The aging bridge deck on Route AE, located two miles west of Route 51, needs replacement.

What's the solution?

MoDOT will remove the existing deck and replace it. Lower bridge rails will also be installed to provide clearance for farm equipment. The improvements will result in a two-lane bridge. A portion of the road will be closed during the work. The road closure is expected to last approximately four-to-six weeks.

Where does it stand now?

Final design plans ongoing.

What happens next?

Construction expected to start -- Summer 2007

What's the estimated cost?

\$260,000

Who do I contact for more information?

- Project Manager Tim Richmond, (573) 472-5290 or tim.richmond@modot.mo.gov
- Transportation Project Designer Jason Williams, (573) 472-5293 or jason.williams@modot.mo.gov
- MoDOT's Customer Service Center, 1-888-ASK-MODOT (1-888-275-6636) or www.modot.org/southeast
